KENDALLS

The Kendall loudspeaker, named after Kendall Square in Cambridge, Massachusetts, the birthplace of KLH, is KLH's flagship speaker. Our Kendall floor standing speakers stand face-to-face with the best sounding floor standing speakers on the market. Their distortion-free sound, pinpoint accuracy, and transparent bass response undoubtedly makes them the ultimate choice in the eyes of any audiophile. And did we mention they are extremely affordable for a pair of floor standers? The effortless execution of a soundtrack coming through the Kendall loudspeakers will make you feel like you are front row at your favorite concert venue. In addition to incredible musicality, the Kendall excels in home theater applications, adding precise directional bass to your soundstage. The speaker features woven Kevlar drivers with

powder-coated die-cast aluminum baskets, braided tinsel leads, custom-designed crossovers, an anodized aluminum tweeter with linear response faceplate, and much more. These features are dressed in genuine wood veneers and come in two finishes, allowing the Kendall to harmonize in any home. The astonishing beauty, sophistication, and loud output of our leading electrodynamic 3-way bass-reflex loudspeaker make the speaker one of a kind. The Kendall is KLH's longest prized possession, and it guarantees to reconnect listeners with their music- without breaking the bank.

Hi-Fi Choice - 2021

Our hi-fi journey might mirror Paul McCartney's long and winding road, but a short time after setting off some travellers will encounter a challenging curve. Let's call it buying speakers and the circa £1,300 price point dilemma. Once, the best advice would have been to go for a monitor-class standmount, prioritising quality over quantity, but things aren't quite as clear cut any more.

Check out this Hi-Fi Choice review for their unbiased opinion on our KLH Kendall. It might just make you want to buy a pair yourself!

"The Kendall is another exciting example of a floorstander with impressive bandwidth capability that offers outstanding sound quality for the money in a package that looks smart and is well made."
